Miss Russell. He wasn't a bit abushed, and' here Miss Tempest sank her voice to a whisper—'I shouldn't be a bit surprised if they forgot old scores.

Miss Tempest may possibly return to a bit

Miss Tempest may possibly return to England Thursday by the Augusta Victoria. So she said, and Julius Steger, who sat there with his quaint little mustaching looped up ceilingward, confirmed this. 'It all depends on Whitney,' she said. 'I'm here; Whitney's in Detroit, I fulfill my part of the contract, but poor Whitney—what has he done? Where so his opera and his company? Unless he has these he will have to pay me the modest little sum of \$5,000 forfeld.

Adam's children, other than those named libits.

Keating's History of Ireland, published about the year 1600, and which is more a tion of old Irish legends than a history, me and cannot verify, but perhaps some triah readers have the volume handy. I give Keating as an authority on the subjection. There must have been some writings best the matter, and it is only natural to support the matter.

Telt." And if it hadn't been for me," interposed the glossy Julius, "Miss Tempest wouldn't have come over at all. She was

ventured the complacent tenor.

'Indeed he was,' assented the prima donna 'and I'd like to say that his stories of cabling me daily are untrue. I couldn't get any answers to my cables. I had no idea what he was doing, and couldn't find out. It was 'The Evening World. I believe, that exclusively announced in an interview with Marius that I was on the Augusta Victoria. All's veil that ends well. We are both of us here.' here."
e are." cried Steger, "and I do
somebody would tell the truth
me, and let people know that it
t owing to Miss Tempest's influence that I get my engagements. I'm engaged to Edwardes in London for next scason, whether Miss Tempest goes over or not. And Edwardes didn't engage me on the strength of my New York notices, he added, with a grim

"You
"I've it is Miss Lally Post. "You see said Miss Post yesterday, "Tve a was created, not being pleasing to Adam, he sister living in London, and she was most apxious for me to go over and ab-pear there. I was under contract to Whitney, but I have found out that my tour would include a terrible number of one-night stands. I can't endure one-night stands, and, what is more, I won't. So if I can arrange things to my satisfaction, to London I go."

To the Editor:

Diana has a swoilen nose, and her winning o't caused considerable excitement at Koster & Bials, where she was rehearsing for the new living pictures. Diana stood on the platform, majestic, supple, obedient. There was a carpenter hanging to the border above her head. Something went wrong with him in his clevated position, and in an unlucky moment he dropped to the stage. En route he grazed Diana's aquiline nose. The air was warm with her indignation. She'd have him arrested, she declared. He did it on purpose. He was trying to She'd have him arrested, she declared. He did it on purpose. He was trying to injure her. He wanted her to look a fright. Et patati. Et patatia. The poor carpenter went to Hammerstein for advice and Hammerstein professed to be very alarmed about the situation. "The only thing you can do," he suggested, "is to marry her." And that's the situation to-day."

The Woman's Side.

To the Editor:

Eleanor Calhoun is back in San Francisco, and the Californians are gloating over her as the first Californian girl to go to France and play there in French. She returned with a "delicious little French cadence" about her voice, and that charmed them. Then she appeared in "As You Like It" at Lady Archibald Campbell's garden party, and was made quite a lot of is London. She's going back to Europe, and later (and this is where all our rosy anticipations comes in) she will return to America and make a tour of the country. Pleasure Cathe

Henry Arthur Jones's play, "The Bau-ble Shop," in which John Drew will appear at the Empire Theatre, has just been played in Berlin under the title of "Die Sit Cenrichter." Oscar Blumen-thal was the adapter. There's an honor for Henry Arthur.

The libsen is writing a new play, but New Yorkers need not be frightened. It will not be imported. The libsen fad—never a very potent affair—is as dead as a door nail. It will, therefore, not be overwhelmingly interesting to note that in writing his plays libsen "draws the skeletons of his characters, then puts on the flesh, and subsequently clothes it." He never talks about his plays while he is constructing them.

To the Editor:

**Rpeaking of gentlemen and the courtesy they show the indies, I will give you my experience, which shows that there are still gene frue.

It is said that the reasons that prompted R. L. McLean's abandonment of his starring tour were domestic difficulties and the fact that managers wanted a very powerful actress to replace poor Marie Prescott. Mr. McLean thought that his own name alone should secure dates as good as any he had ever had, and was very much hurt. Starring actors, after all, are in less demand than starring actresses. demand than starring actresses. --

Here's Woman's Champton

To the Editor:

I should like to know why it is that so many persons seem to delight in belittling the female Time and again we are assailed with letters from would-be critics condemning women for any little failing they may possess, or that these critics imagine they possess. Much more to their credit would it be did they extol their good quali-ties and endeavor to make them objects of admiration instead of advising their fellow men to bethe change in her appearance. She ware of them as if they were dangerous animals. looked dreadfully ill, and could hardly if women have a fault, nine out of every ten she will succeed in London? I wouldn't a clerk she was probably forced to it by male cooks and dishwashers. If she is a firt she has "sporty" and indulges occasionally in hard drinks she inherits the taste from a drunken father, and if she marries for wealth or title she only follows man's example. All of us are too ready to con demn others for a shortcoming without considering whether we, ourselves, possess the same. Better for everybody did we follow that old maxim: People living in glass houses should not throw up believe that what is fair for one is fair for all, and now that woman has been so unceremoniously dealt with I should like to see the men criticised

"THE" DRAKE.

To the Editor: In connection with the question of "Where did Cain get his wife?" it may interest some of your readers to know where mention can be found of Adam's children, other than those named in the

Keating's History of Ireland, published in Irish about the year 1600, and which is more a collec-tion of old Irish legends than a history, mentions I think, three daughters. I am away from home now and cannot verify, but perhaps some of your trish readers have the volume handy. I don't give Keating as an authority on the subject, but

There must have been some writings hearing on a counte who lived to the good old age of our first parents would have had more children than wouldn't have come over at all. She was reracy to siny."

"Quite true," asserted the prima and begged me to return. I'm thankful now that I took his advice, and that we have the best of Whitney."

"Whitney's been too anxious arranging for Miss Tempest's non-return,"
ventured the complacent tenor.

"Was There a Female Adams"

Was There a Female Adam? the Editor

In answer to where Cain got his wife, we find in Genesis i., 27, that "God created man in his own image, male and female created he them.

In the second chapter, eighteenth verse, "Go said it is not good that the man should be alone; I will make him an helpmeet for him."

In verse 22 the rib which the good Lord God had taken from man made he a woman and brought her unto the man, in chapter v. verse 2. 'male and female created he them, and called heir names Adam in the day when they were created. Now we find that God created the male and

put into the Garden of Eden to dress and keep art of dining. It is then we find him alone. Then Eve was made (not created), more beautiful to look upon. It is supposed by some that the woman that

has just the same right to refuse to believe as you may have to believe. There is nothing prove that your "head" is wiser than his, but apparently he has studied enough to know the narrow-minded religious people are, as a rule, very intolerant. I have centuries of history human beings not capable thy more to do any sensible thinking for themselves, but only through their pastors and books of religion, will not un-

To the Editor: ' Marriage as a failure with man," would doubt tity," and "Purity of Heart," if a searchlight were let in upon their own private characters. What right has a "Happy Bachelor" to remire the absolute possession of these virtues absolute possession of them himself?

A pure woman should scorn to join herself in marriage with a man who is grossly beneath her in this respect. Let "birds of a feather flock "He Didn't Think He'd Do It-But

He Did."

To the Editor: The prelude to the regular opening of the dramatic season is being played this week by the minor theatres. Next week many playhouses will have thrown off their inactivity, and we shall take the plunge into a new season. The outlook is brigher than it was a few weeks ago. The season may, after all, turn out to be a success.

Will some one advise me? Several months ago while in the presence of a couple of young ladies, relatives of mine. I made a boart that if a certain young gentleman was to do as he said he would, viz. Come into a room where I was sitting with a number of ladies and gentlemen and take a chair from alongside me, grunt and walk over to the other end of the room # would punch him. Now, then, much to my disgust, the young him. Now, then, much to my disgust, the young

which shows that there are still some true ger Last Wednesday, accompanied by my sister. went out for a stroll and, it being a very windy day, my porasol blew out of my hands and went galloping down the street at a lively rate.

A gentleman (for such he surely was, although dressed in laborar's clothes) chased the dancing parasol, and after considerable trouble, restored it to me, its grateful owner.

When I thanked him he politely raise his hat.

He was a gentleman.

He Wants Advice.

Burning Gas and Fresh Air. Air in a living-room is made impure five garlie for in three-quarters of an hour the gas it, bottlie and cork up very tightly. This will spoil as much fresh air as would is delicious for flavoring salads, do a man the whole night. An ordinary individual uses a gailon of pure air every minute; one gas burner uses eleven gallons a minute. No matter what the weather may be, have the window open while the lights are burning to let

Kitchen Bougnet.

The plants most generally required in the kitchen are balm, basil, burnet, garlic, hyssop, parsley, chives, chervil, borage, sage, marjoram, mint, tarragon, thyme, &c.; these are all useful, not only in actual cookery, but for all manner of drinks and vinegars. The leaves of all these plants should be stripped from the stalks and put away in tin boxes; they should be kept free from damp. The essentially primitive country plan of tying up the sprigs in loose bunches and hanging them up to the ceiling in the kitchen, or even the living rooms, may be excel-lent as far as freedom from damp is conerned; but obviously there is the disadvantage that a good deal of dust and

Pure Air Purifies the Blood There is nothing like pure air to purify the blood. One day in the country, on food, and should agree with .every high ground, under a shady tree, is young person. It is not appreciated as worth all the cures in therapeutics. A it should be; the prejudice against it is sail down sait river or a tent on the beach when the sun is up is another make cold milk agreeable with a whimexcellent tonic. Bad air makes bad blood or keeps it bad. Soiled air can boiled milk with salt. Next to pure no more purify impure blood than dirty milk comes milk foods-cereals, cuswater can cleanse soiled clothes. Fresh tards, purees, &c. water, good soap and clear air are needed for nice laundry work, and they are invaluable to the human system Get out of doors and let the lungs and

blood have clean, air. Dainty Breakfasts.

People are out of sorts in the morning. and a dainty breakfast is something for ing purposes. As a matter of fact, too a cure. The daintiness consists, for most part, in attention to details. Have cloth clean, the dishes bright, the butter dislodge the small particles of food from hard, the water cold, the coffee hot, the the teeth. For this purpose two things cream cold, cold tea or the milk boiling are indispensable-a thread and toothhot. A bit of mint or parsley will make almost any prepared dish tempting, and a little cracked ice adds 50 per cent. to thread easier to pass between the teeth the flavor of the fruit. These accessories will not satisfy hunger, but they please the eye, which is an element in the fine

You Should Eat These Things.

Rice, with stewed plams, is building naterial for good color. Hominy and noney will kindle spirituality into clear consciousness. After breakfasting on in orange, an egg. a corn muffin, butter, offee and stelllized milk, one should have a clear conception of the object of hife. Macaroni and tomatoes, graham olscults and rasberry 'am, olives, roasted bananas, with cream and sponge cake should put the consumer into a sweet and sunny frame of mind. That's wha the aesthetic-hygienic-physico students of development say.

Bathroom Fixtures.

A fixture of the model bath room is a veighing scales. Manufacturers submit of bodily cleanliness. esigns on application, the machine being adapted to the space at hand. Aside rom utility, the enamelled iron and polished steelyard is gulte ornamental. the walls are hung in sanitary or tile- ers come from a superabundance of iron work, mirrors, washstand, demiabaths liver. Citric acid, applied to and linen cases are done in ivory. That pinches of Phoebus. these dainty tollet-rooms have a refin- reliable authorities.

Pure air, like pure water, is colorless and odorless. Smells are suspicious. Be certain when an odor is detected that there is something in the air which hould not be there; if permitted to remain it will cause trouble. Pleasant odors, like the breath of flowers, or the fragrance of balsam, new-mown hay and pines, are fluctuating; nature does waste her sweetness. Unpleasant odors are pervading and get stronger as warning of their danger. If the offending cause is not removed instantly health

will begin to decline. An Excellent Tooth Powder.

Equal parts of castile soap, orris root be and precipitated chalk is one of the bes tooth powders known. Plain castile soap, used every two days will keep soun teeth in good condition. Chalk is the principal element in all tooth powders; the precipitated is a triffe whiter, though no better than the prepared chalk, Flavored with orris or wintergreen chalk is one of the few perfectly harmless den-

tifrices on the market

Relative Weight and Height. Here is a standard table showing the weight a person of a given height should pe: 6 feet, 191 pounds; 5 feet 11 inches, 180; 5 feet 10 inches, 170; 5 feet 9 inches 161; 5 feet 8 inches, 153; 5 feet 7 inches 146; 5 feet 6 inches, 140; 5 feet 5 inches 135; 5 feet 4 inches, 130; 5 feet 3 inches 125; 5 feet 2 inches, 120; 5 feet 1 inch, 115;

Nice Fruit Salad.

5 feet, 110; 4 feet 10 inches, 100.

Take a box of preserved guavas an pour them with their syrup into a bowl. Add a large glass of sherry and a table spoonful of lemon juice, a few cherries strawberries, grapes, raspberries and quarters of orange. Place on ice and lude to breakfast is simply a charm for erve very cold with sponge cake.

Food, Health and Happiness.

Victuals and drink make or mar nations. What insures the prosperity of a people is health. "Make men good and dicinal, economical and healthful. they will be happy," says the prophet: make them healthy and they will good and happy. For 90 per cent, of the inmates hygienists find propor ional disease.

gifts of eloquence.

life, and the comfort and freedom of

Drink milk, yellow, skinny, bony girls, f you want to get fair, plump and goodooking. There is almost as much nutriment in a pint of milk as in a quarter of pound of meat, and it is digested in one-third of the time. Milk is human unmerited. A little lime water will sical stomach, and anybody can drink

Tooth Brush.

Don't use a stiff brush. Hard, wiry bristles make the gums sore and cause them to recede. Don't buy a big brush. The smallest with a smooth back, slightly concaved handle and medium bristles of uneven lengths are the best for cleanthe much importance is attached to the value of the tooth brush. The main thing is to pick. That done, rinsing the mouth is all that is needed. Dental floss is a flat than twist and less liable to cut the Wood or straw toothpicks are gums. only used.

Wash and Be Clean.

Bathing is medicinal-stimulating if cold, soothing if warm and disinfecting hot. A plunge or a shower bath is the best kind of a tonic, while bath is excellent to draw off inflamms tion. Those people who like to think that a daily bath is a waste of water, and that the practice is weakening to the system, might learn a lesson from the plumber. Bathing the body is simply a branch of good sanitation. leanliness is bad sanitary work. Defective plumbing in a house leaves the pipes choked with waste and forces back the poison generated by decay. On exactly the same principle the human system of drainage is impaired by lack

Freckles and Carrots.

There are two kinds of freckles, and constitutional. The first come from The fashion of painting the bathtub the sun, last all Summer and disappear has spread all round the room, and now at the approach of Jack Frost; the othpaper, varnished, and the floor, wood- in the blood or a bad condition of the ing influence there is not the slightest done the face even if they do not come off. The discolorations will wear off as the weather and the sun cools, and a diet of carrot is said to assist nature. Nothing will do away with the constitutional freckle but a blood purifier of

liver reform.

What a "Blow" Will Do. A "blow" in the open air will brighten, cleanse, rest and strengthen the eyes; purify the blood; wash out the lungs, and flush the air passages of the nose and ears; quicken sluggish circulation; strengthen weak digestion; brighten the complexion and often resist the progress of disease. In the flood of pure air the poison is driven out of the system. Go for a "blow" if you want to

clean inside. Blafkberry Pudding No. 2. Into a pint of boiling milk stir two tablespoonfuls of constarch mooth with a little cold milk, and add two eggs beaten with two tablespoor fuls of sugar, or more, according to the taste. Spread a cupful of blackberry jelly or jam in the bottom of a pudding dish, pour the cornstrach mixture it, and bake. Any fruit, jam or

may be used for puddings of this kind. Health and Perspiration

Perfect health is impossible without free perspiration. Perspiration is one of the methods adopted by nature to get rid of superfluous or waste material. To facilitate this delicate system of drainage the chin is perforated with pores. What is forced through them should be removed for excellent reasons. This cannot be effectually accomplished without frequent bathing.

The Pretty Plum.

Eat plums if you want to be pretty. This is the plum season, and the fruit was never better. The plum as a prethe system; after a dinner it is a golden aid to digestion; eaten in the evening, it cools the blood and delights the palate; its action on the stomach is me-

Cheese. Cheese is valuable as an aid to diges-

tion and as nourishment for quickly pairing the waste in the tissues. After a feast wise men take cheese to help digest the other foods. Physicians never deny their patients craving for cheese, as
